OTHER DOCUMENTS:

- Communication from European Patent Office dated 5 July 2002

PCT International Publication No. WO-A-96/35309 to White *et al.* entitled *HYBRID CELLULAR COMMUNICATION APPARATUS AND METHOD*.

PCT International Publication No. WO-A-98/09457 to White *et al.*, entitled *PRIVATE MULTIPLEXING CELLULAR NETWORK*.

DISCUSSION:

White '309 shows the circuit and process that claims to facilitate cellular communication between non-native cellular handset and public cellular network, with the non-native cellular handset being a cellular handset that has not subscribed to the hybrid cellular communication network.

White '457 propose to describe a private multiplexing cellular network that includes a multiplexing circuit coupled to its radio subsystem. The multiplexing circuit is, in turn, coupled to two A-interfaces: a private A-interface for coupling a private radio subsystem with a private mobile switching center (MSC), and a public A-interface for coupling the private radio subsystem with a public MSC.

Pursuant to 37 C.F.R. §1.97(e), the undersigned attorney hereby certifies that each item of information contained in this Information Disclosure Statement was cited in a communication from a foreign patent office in a counterpart foreign patent application not more than three (3) months prior to the filing of the statement. Accordingly, no fee is incurred by this Statement.

Respectfully submitted,
